## Water Service Line Material Survey Reminder

Maryville Water Customer,

Last year there was a survey sent out from the Maryville Water Department regarding what type of material the water line is that enters your residence or business. It was due back by October 31<sup>st</sup> 2022. If you turned it in, thank you very much, we really appreciate it and you can disregard this letter. If you have not completed one, please fill this one out as soon as you can and return it to us. This is a new program implemented by the EPA that **requires us** to collect, compile and submit this information to the EPA by 2024. The only info needed is below and will be used for the sole purpose of determining whether or not lead service lines exist in the distribution system.

This form can be emailed to [waterplant@maryville-il.us](mailto:waterplant@maryville-il.us) If you don't have email, it can simply be dropped off at the Village Hall, placed in the water payment drop box or handed to the water clerk. If none of these options work, please call 618-345-7027 ext. 2338 and we can arrange someone to pick it up.

If you do not already know what material your incoming water line is that you have, the steps on the reverse side of this form should help with the identification process. If we do not receive this form back from you, we will have to excavate your yard to obtain this information. Should you have any questions please call the Maryville Water Treatment Plant at 618-345-4197, between 7am - 3pm, Monday - Friday. Thank you for your help.

Name: \_\_\_\_\_

Address (Location of water line) \_\_\_\_\_

Owner or Renter: \_\_\_\_\_

Please check the appropriate material for your service line:

Note: **This is the service line that runs from your meter and into your home / business.**

Plastic Line: \_\_\_\_\_

Copper Line: \_\_\_\_\_

Galvanized Line: \_\_\_\_\_

Lead Line: \_\_\_\_\_

I affirm that the information provided in this survey is true and accurate to the best of my knowledge.
